Morris Material Handling, Inc., Supplies Parts for All Brands of Overhead Cranes and Hoists

OAKCREEK, WI (April 17, 2009)—Morris Material Handling, the original equipment manufacturer of P&H® Cranes, Hoists, and Replacement Parts, provides complete parts services for not just P&H but any brand of overhead crane and hoist – even discontinued models. The company is committed to keeping all types of overhead lifting equipment in safe and dependable operating condition.

Morris Material Handling offers tailored parts stocking as well as quick-ship delivery. Regardless of make and model, whether P&H or non-P&H, Morris Material Handling possesses comprehensive knowledge of crane operations, from complete crane systems to accessory parts. Trimming spare parts inventories or using “will-fit” parts to save money during an economic downturn is a short-term fix. On the other hand, a well-strategized spare parts program can help to increase uptime, reduce total ownership costs, and lead to long-term productivity.

Manufactured parts from Morris Material Handling deliver reliable performance and extended service life. Highly trained engineers are equipped with state-of-the-art tools to inspect, design, re-engineer and manufacture compatible parts for overhead cranes across all industry sectors. All parts are built to CMAA, HMI, ANSI B30, MHI, NEMA, AISE (AIST) and ASME specifications to ensure that they meet or exceed the OEM ratings for the crane or hoist.

Parts CSRs and on-call experts provide year-round customer support and after-hours customer support to assist with emergencies. With critical mass purchasing power and in-stock inventories of mechanical and electrical parts, Morris Material Handling offers expedited delivery programs and international shipping services for most brands.

Morris Material Handling also provides modernizations, rebuilds, and overhaul solutions using authentic parts that meet current tolerances and performance standards.

For more information on parts for any brand and model of overhead crane and hoist, contact Morris Material Handling at 800-PARTS-PH (800.727.8774), or email parts@morriscranes.com. To submit an online quote request, go to http://www.morriscranes.com/parts_quote.php. The online quote request form is easy to use, always accessible, and provides a quick response. To reach the nearest service center anywhere in North America, call 800.933.3001. To learn more, visit www.morriscranes.com.

About Morris Material Handling

Morris Material Handling is a world-class supplier of overhead cranes and maintenance services, and the original equipment manufacturer of P&H® Cranes, Hoists, and Replacement Parts. Headquarters are in Wisconsin, where the original company was founded in 1884. The company serves customers in the U.S., Canada, Mexico, and Chile, with over 1,000 employees in multiple service and manufacturing locations. Their on-going commitment is to improve safety, productivity, and return on investment over the entire life-cycle of its customers' operations.
